SIGNATURE SLEEP EXPERIENCE.

A successful day starts with a good night's sleep! Each of us fondly remembers that one hotel where we had a good sleep and got up feeling invigorated, just like we have bad memories of those where we woke up feeling even more tired than the night before. This is why first-class hotels, along with everything else that makes them elite, take care that their guests have a good sleep and rest.

HESPO is a part of the Hilding Anders Group, one of the leading and most prestigious companies in the world and a partner of some of the largest hotel groups, including Accor, Marriott, Hilton, Radisson Hotel Group, Hyatt, Kempinski and others. You can find us in top-class hotels all over Croatia, from Istria and Opatija to Pag, Dugi Otok and Dubrovnik, from Zagreb to Osijek. Regardless of their rating, in each of them you will sleep on 100% Croatian-made products – Hespo mattresses and beds designed and manufactured at our state-of-the-art factory in Međimurje.

See the quality of our signature sleep experience for yourself.

THE SECRET OF OUR DREAM FACTORY.

What lies behind manufacturing one Hespo mattress?

Over 30 years of experience, 700 employees, our own production at 42,000 m², annual manufacture of 180,000 mattresses, 800,000 covers and furnishing numerous hotel establishments, from boutique hotels to major hotel chains in Croatia and abroad.

From our factory to your room

We provide full services, from manufacturing, delivery and installation to repair services.

A reliable partner

You can count on your accommodation establishments being furnished in time with high-quality products and without any further involvement on your side.

5 stars

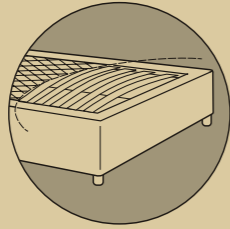

Whether you are a boutique hotel or a major hotel chain, everything is tailored for you.

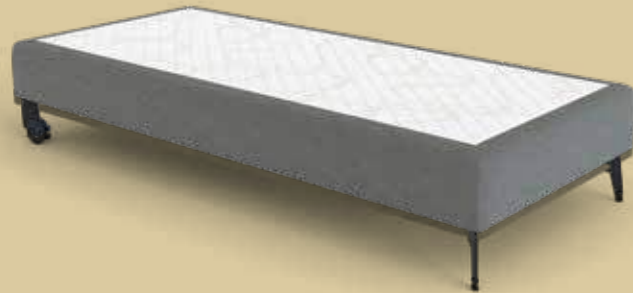

BEDS.

KREVET ASTOR

Astor is a typical hotel bed, fully upholstered, but specific for providing surface elasticity and comfort through **built-in elastic, wooden slats**.

The standard elastic Sana bed base is built in the wooden frame and all the elements are upholstered with one of the fabrics or eco-leathers from the Hespo range.

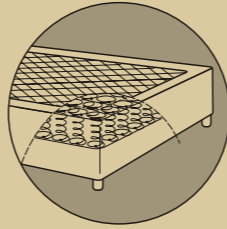

WIDTH	LENGTH
90 cm	190 / 200 / 210 cm
100 cm	200 / 210 cm
110 cm	210 cm
140 cm	190 / 200 / 210 cm
160 cm (2 bases)	190 / 200 / 210 cm
180 cm (2 bases)	190 / 200 / 210 cm
200 cm (2 bases)	190 / 200 / 210 cm

BASE HEIGHT excl. legs: **20 cm**

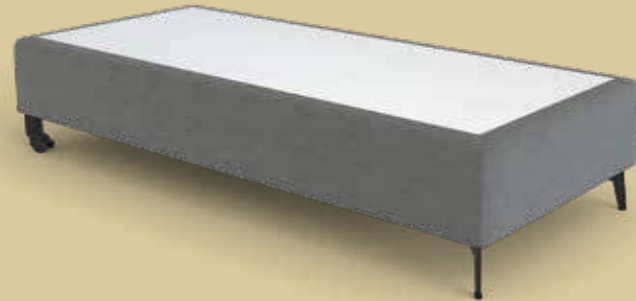

Wide beds are made by joining two beds.

Astor can be combined with any mattress or headboard from the range of our hotel products. Bed base width corresponds with the mattress width.

KREVET MEDITERAN

Mediteran is a firm, stable and comfortable high-quality bed combining the **Bonnell spring core**, solid wood and particle boards, with all elements upholstered with decorative fabric. It is identical to the Mediteran Lux model, but it is **5 cm lower**.

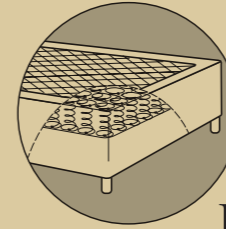

WIDTH	LENGTH
90 cm	190 / 200 / 210 cm
100 cm	200 / 210 cm
110 cm	210 cm
140 cm	190 / 200 / 210 cm
160 cm	190 / 200 / 210 cm
180 cm	190 / 200 / 210 cm
200 cm	190 / 200 / 210 cm

BASE HEIGHT excl. legs: **23 cm**

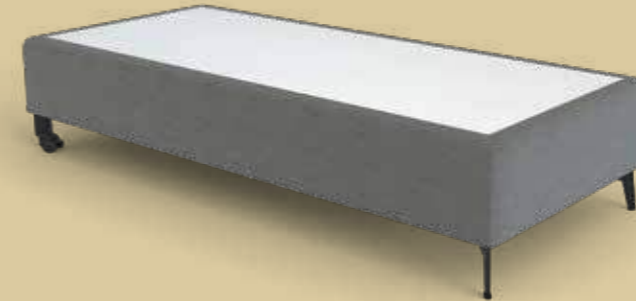

Can be custom-sized.

If you choose the right decorative fabric or eco-leather type and pattern and match it with the leg design, Mediteran will go well with any style of furniture, from classic to ultra-modern.

KREVET MEDITERAN LUX

Mediteran Lux is a firm, stable and comfortable high-quality bed combining the **Bonnell spring core**, solid wood and particle boards, with all elements upholstered with decorative fabric.

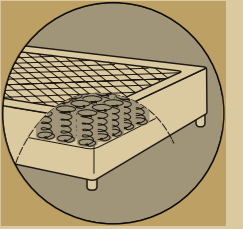

WIDTH	LENGTH
90 cm	190 / 200 / 210 cm
100 cm	200 / 210 cm
110 cm	210 cm
140 cm	190 / 200 / 210 cm
160 cm	190 / 200 / 210 cm
180 cm	190 / 200 / 210 cm
200 cm	190 / 200 / 210 cm

BASE HEIGHT excl. legs: **28 cm**

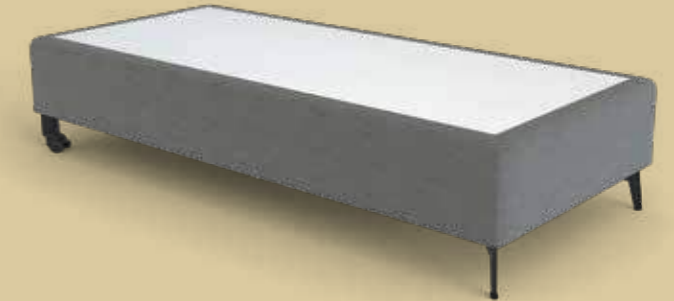

Can be custom-sized.

The bed has legs at the foot end and rollers at the headboard end, making it easy to move.

KREVET ADRIATIC LUX

Adriatic Lux is a firm, stable and comfortable high-quality hotel bed combining solid wood and particle boards upholstered with decorative fabric or eco-leather of your choice. A **pocket spring core** is built in the wooden frame, which, paired with a good mattress, will give your guests maximum comfort.

WIDTH	LENGTH
90 cm	190 / 200 / 210 cm
100 cm	200 / 210 cm
110 cm	210 cm
140 cm	190 / 200 / 210 cm
160 cm	190 / 200 / 210 cm
180 cm	190 / 200 / 210 cm
200 cm	190 / 200 / 210 cm

BASE HEIGHT excl. legs: **28 cm**

Can be custom-sized.

When you add legs and a mattress to a 28-cm-tall bed, your guests will experience sleeping on a very tall bed that is much easier to get out of.

LYON

A BED UPHOLSTERED WITH DECORATIVE FABRIC.

Comfort wrapped in simplicity makes Lyon a place to sleep that fits any room.

A Tuscan-style-inspired bed with a modern twist. The headboard height is 106 cm and the base height is as much as 42 cm. The bed frame cover has a Velcro strap and it can be removed and machine-washed, which makes cleaning much easier. Various fabric colour options also make it easier to match the bed with the style of your interior. Casualness and subtlety are the trademarks of this bed.

WIDTH	LENGTH
160 cm	200 cm
180 cm	200 cm / 210 cm
200 cm	200 cm / 210 cm
BASE HEIGHT:	42 cm
HEADBOARD HEIGHT:	106 cm

FLOUNCE.

Hotel beds can be made using neutral fabric and a flounce can be added using a Velcro strap or attached to the top surface. This makes maintenance simple and allows for frequent changes in the bed's appearance. You can choose from a wide range of Hespo fabrics or have it custom-made.

FABRICS.

One and the same bed model with a different design, quality and type of fabrics chosen for upholstering the bed and headboard can give completely different aesthetics and dimensions to a hotel room design. Hespo's collaboration with architects leads to a perfect harmony between beds and other elements in the room.

Besides our standard selection of fabrics and eco-leathers in a wide range of colours, it is also possible to choose fabrics for a particular hotel individually. All fabrics comply with quality standards and the OEKO-TEX® Standard 100.

NON-COMBUSTIBILITY.

There are standards and legal regulations on the use of fire-retardant and self-extinguishing materials in furniture, which also apply to hotel furniture. When it comes to manufacturing upholstered beds and mattresses, there is a wide range of high-quality fabrics meeting the required standards.

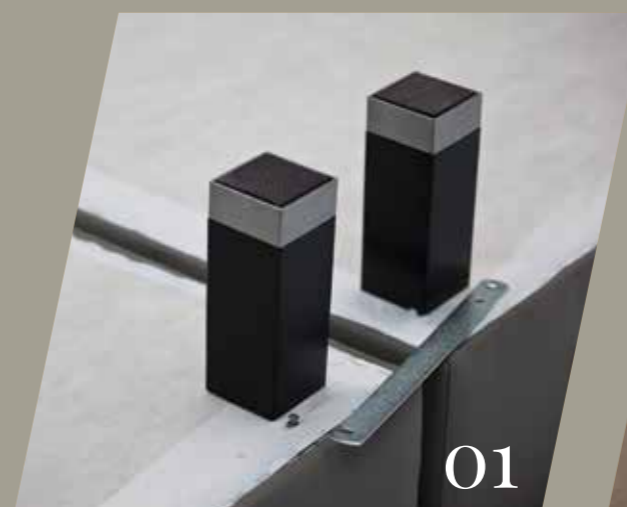

EN 597-1 i
EN 597-2
standards

JOINING BEDS.

Hotel beds have the same external dimensions as the mattress on them, which allows them to be combined into a large-sized bed or separated into two separate beds, if necessary. Movement is easy thanks to the wheels at the headboard.

01

02

To keep the beds joined during sleep, easy-to-use metal connectors can be installed in two ways: **at the foot of the bed (01) or in the centre of the bed base (02)**. Connectors are accessories and are not included as standard equipment.

BED LEGS.

These are accessories which significantly heighten the overall impression. Only a harmonious combination of leg design and other bed elements will give an ultimately pleasing aesthetic and make the hotel bed a coherent whole.

There are many bed leg and roller models available. They come in various materials, colours and sizes, many more than listed here. Leg height, bed height and mattress thickness combined make up the total bed height.

BED ROLLERS.

To turn the bed easily, legs are placed at the foot end, while rollers are placed at the headboard end. This makes maintenance easier and joining two separate beds into a single

large bed simpler. Beds up to 140 cm in width come with two rollers and two legs, while wider models have two additional centre legs for stability.

HEADBOARDS

Hotel room design sometimes includes either upholstered headboards or wall panels and a combination of both is used fairly often as well. Hespo offers several standard headboard models, but their shape and size can be tailor-made for

a specific hotel based on the architect's ideas. Headboards can be attached to the bed, which may come in handy if beds are occasionally moved, and they can also be attached to the wall.

MATTRESSES.

COMFORT S F2

Mattress with a reinforced F2 Bonnell spring core and latex coconut and PU foam linings

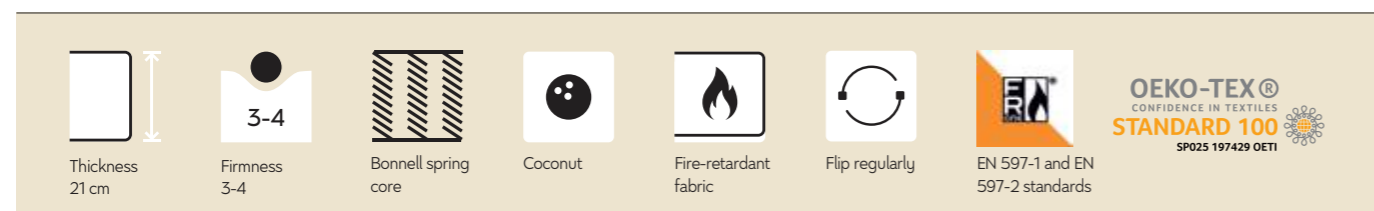

Comfort S F2 is an extremely durable mattress recommended for three-star hotels. The Bonnell spring core offers classic comfort to guests. The core is clad with coconut fibre panels with a density of 1400 g/m² to make it more elastic and durable. It is recommended for three-star hotels, but four-star hotels use it as well.

A mattress that complies with standards

The mattress cover is made of fire-retardant fabric that complies with the EN 597-1 and EN 597-2 standards as well as with the OEKO-TEX® Standard 100.

Greater firmness and durability

This mattress features a reinforced F2 spring core and extended lateral vertical foam linings, which significantly improves its firmness and durability.

LUXURY 21

Mattress with a high-quality F2 pocket core and PU foam linings

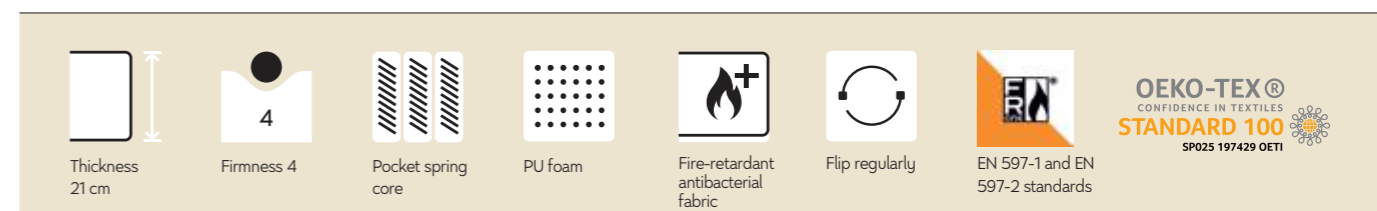

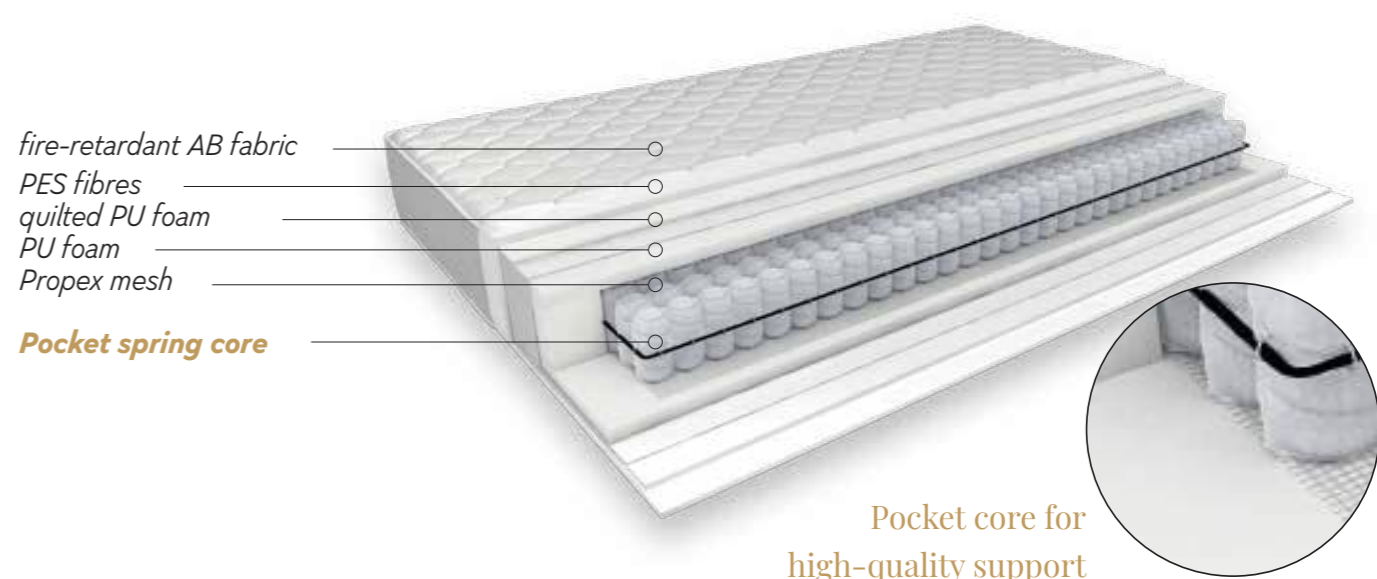

Luxury is a top-quality mattress with a thickness of 21 cm, recommended for four-star hotels. The pocket spring core provides guests with exceptional comfort and a peaceful sleep, adjusting perfectly to the body's shape. PU foam linings provide additional softness.

A mattress that complies with standards

A comfortable, soft two-layer antibacterial mattress cover is made of fire-retardant fabric that complies with the EN 597-1 and EN 597-2 standards as well as with the OEKO-TEX® Standard 100.

Greater firmness and durability

This mattress features a reinforced F2 pocket spring core and extended lateral vertical foam linings, which significantly improves its firmness and durability.

LUXURY

Mattress with a high-quality F2 pocket core and PU foam linings

Luxury is a top-quality mattress with a thickness of 26 cm, recommended for four- and five-star hotels. The pocket spring core provides guests with exceptional comfort and a peaceful sleep, adjusting perfectly to the body's shape. PU foam linings provide additional softness.

A mattress that complies with standards

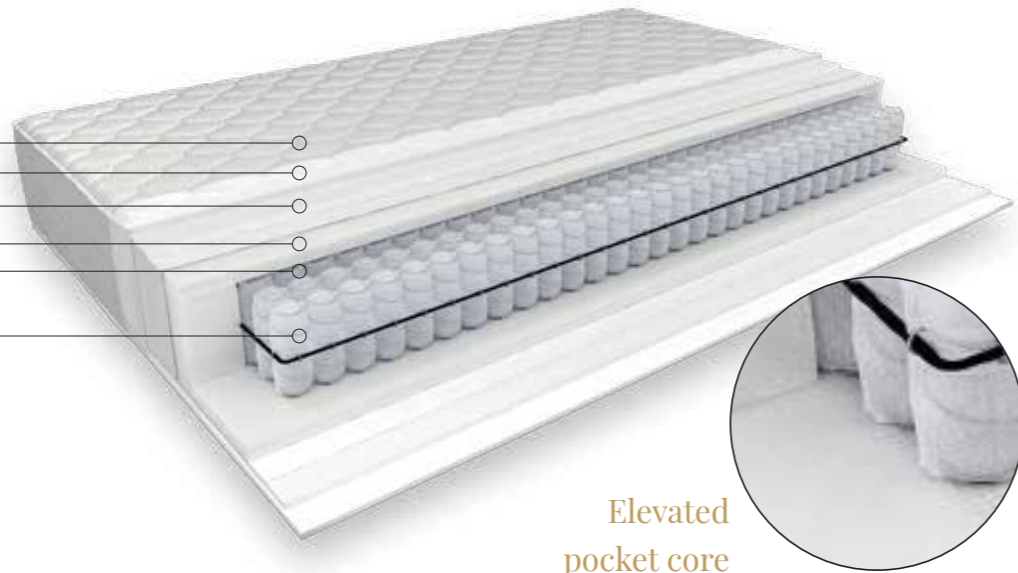

A comfortable, soft two-layer antibacterial mattress cover is made of fire-retardant fabric that complies with the EN 597-1 and EN 597-2 standards as well as with the OEKO-TEX® Standard 100.

Greater firmness and durability

This mattress features a reinforced F2 pocket spring core and extended lateral vertical foam linings, which significantly improves its firmness and durability.

JOINING MATTRESSES

Hotels often have to furnish a room with two beds which, if necessary, can be joined together into a large bed or separated into two single beds.

In that case, mattresses that can be joined together with a Velcro strap or zippers can be ordered in advance. If bed connecting fittings are also used when joining mattresses, such a system can work as a single large bed without any issue, ensuring that there is no movement or gaps between the two mattresses and beds.

PILLOWS.

Pillows filled with PES fibres

A comfortable classic pillow

Classic pillows are stuffed with soft polyester silicone balls or polyester wadding, which is distributed evenly and offers a high level of

comfort. An antibacterial cover, quilted with PES wadding on the inside, gives the pillow more volume.

MEDISAN pillow

The pillow cover is made of **100% cotton fabric treated with antibacterial agents**, making the pillow resistant to various types of bacteria. The cover is quilted with PES wadding on the inside, making the pillow more comfortable and voluminous. The stuffing is made of **100% polyester silicon balls**, which are distributed across the pillow optimally, providing a high level of comfort. The pillow design and materials make it easy to clean and wash.

Standard sizes:

80 x 60 | 70 x 50 | 80 x 50 | 60 x 40 cm

COMFORT PLUS pillow

Comfort Plus is a classic pillow stuffed with polyester wadding, which is distributed across the pillow optimally, making it soft and comfortable. Instead of being sewn with a thread, its seams are made using ultrasonic welding, which prevents the pillow from tearing at the seams and losing its shape.

Standard size:

80 x 60 cm

Viscoelastic (memory) foam pillows

An innovative foam pillow

A pillow made of innovative BIO ALOE memory foam. It reacts to the pressure and temperature of your head and neck, adjusting perfectly to the shape of your body and supporting all the points

of contact between your body and the pillow. The foam is enriched with an extract of aloe vera, known for its health benefits.

BIO ORTHO

HARMONY

Size: 72 x 42 x 11 cm

Viscoelastic foam pillows with accessories

BLUE LAVANDER pillow

Blue Lavander is an innovative pillow made of **Casanova® memory foam**, enriched with lavender essential oils and aloe vera, giving a fresh, delicate and long-lasting scent for additional relaxation. **Lavender essential oil** eases muscle tension. The scent of oil in the pillow is delicate and subtle.

Perforations on the pillow allow for ideal air circulation.

Size: 70 x 40 x 16 cm

ECO GREEN pillow

Eco Green is an innovative orthopaedic pillow made of **Casanova® memory foam**. Made from a combination of raw materials from renewable resources, it is a good choice both for the environment and for your peaceful sleep. This pillow follows the shape of your neck and head.

Perforations on the pillow allow for ideal air circulation.

Size: 70 x 41 x 11,5 cm

CRYSTAL pillow

The Crystal pillow core is made of **memory foam enriched with as many as 16 types of crystals**, the benefits of which have been confirmed by scientific research. The crystals help reduce the level of stress and fatigue, improving sleep quality. **Biocrystal®** is a mix of 16 ground crystals made in Croatia, which has been validated by scientific research. The crystals boost cell regeneration and revitalise the body.

Size: 4 x 43 x 14 cm

The cover is made of anti-aging fabric with added vitamin E, aloe vera and jojoba oil.

Gel pillows

Technogel®

Technogel pillows are superior to other pillows because of their numerous benefits, including uniform distribution of body pressure along all three axes, which ensures better circulation and alleviation of uncomfortable pressure; excellent anti-decubitus properties; excellent temperature-sensitivity of the material; and optimal temperature maintenance. Technogel is a **non-toxic, completely sterile material which prevents the growth of**

mites, bacteria and other microorganisms, thus ensuring maximum hygiene. The base of the Technogel pillow is made of viscoelastic foam. **These pillows are extremely durable.**

All Technogel pillow covers are **machine-washable at up to 60 °C**. Technogel pillows come in a convenient box with an extra cover.

HOW LOCAL BECOMES GLOBAL.

Thanks to our cutting-edge technology, carefully selected materials and effort of employees with over 30 years of experience in the manufacture of mattresses, Hespo has gone beyond Croatian borders a long time ago. Besides our neighbours Slovenia, Serbia and Montenegro, we are also present in the Swiss (Kempinski St. Moritz), Russian, Austrian and German market.

Many years of experience, keeping up with the latest trends and teamwork help us make all the wishes of our hotel industry partners come true.

For them, we have chosen mattresses and beds that can please as many guests with different sleeping habits as possible.
